A 5x5 grid with numbers and green circles. The grid is divided into four quadrants by a vertical line between columns 2 and 3, and a horizontal line between rows 2 and 3. The numbers are: Row 1: (1,2)=2, (1,4)=3, (1,5)=2; Row 2: (2,1)=3, (2,2)=3, (2,3)=2, (2,4)=2, (2,5)=2; Row 3: (3,1)=3, (3,2)=2, (3,3)=2, (3,4)=3, (3,5)=3; Row 4: (4,1)=1, (4,3)=3, (4,4)=3, (4,5)=3; Row 5: (5,1)=1, (5,2)=3, (5,3)=3, (5,4)=3, (5,5)=3. Green circles are placed in the following cells: (1,1), (1,3), (2,1), (2,2), (2,4), (2,5), (3,1), (3,2), (3,3), (3,4), (3,5), (4,1), (4,2), (4,3), (4,4), (4,5), (5,1), (5,2), (5,3), (5,4), (5,5).

[illegible]

A 4x4 grid with numbers and green circles. The grid is divided into four 2x2 quadrants. The top-left quadrant has a green circle at (1,1) and (2,1), and the number 4 at (2,4). The top-right quadrant has the number 2 at (1,2), 1 at (1,3), 1 at (1,4), 4 at (2,2), and 4 at (2,3). The bottom-left quadrant has green circles at (3,1), (3,2), and (4,1), and the number 4 at (4,4). The bottom-right quadrant has the number 2 at (3,2), 2 at (3,3), 2 at (4,3), 4 at (4,2), 3 at (4,4), and 3 at (4,1).

Three 3x3 grids are shown, each with a different number of green circles. The first grid has 3 circles, the second has 4 circles, and the third has 5 circles. Each grid has numbers in some cells, and the goal is to find the missing number.
