A 4x4 grid with numbers and green circles. The grid is divided into four 2x2 quadrants. The top-left quadrant contains numbers 2, 2, 5 and green circles at (1,1), (1,2), (1,3), (2,1), (2,2), (2,3), (3,1), (3,2), (3,3). The top-right quadrant contains numbers 3, 1 and green circles at (1,4), (1,5), (1,6), (2,4), (2,5), (2,6), (3,4), (3,5), (3,6). The bottom-left quadrant contains numbers 4, 3, 6, 2, 1, 2, 3 and green circles at (4,1), (4,2), (4,3), (5,1), (5,2), (5,3), (6,1), (6,2), (6,3), (6,4), (6,5), (6,6). The bottom-right quadrant contains numbers 4 and green circles at (4,4), (4,5), (4,6), (5,4), (5,5), (5,6), (6,4), (6,5), (6,6).

The image displays three 4x4 grids illustrating the state of a 15-puzzle. Each grid contains 15 numbered tiles (represented by green circles with numbers) and one empty space (represented by a white square). The tiles are numbered 1 through 15. The first grid shows the initial state. The second grid shows the result of a single move. The third grid shows the result of another move.
